

To help our customers start using the Angus Source® program, Hoover Angus Farm is pleased to offer 20 Angus Source® tags for each bull purchased from us in 2008 and 2009. These tags must be used for calves sired by Hoover bulls. Tags must be applied to the first calf crop of the bull purchased (Ex: for bulls purchased in 2008, tags must be applied to the bull's calves in 2009).

Due to program and government regulations, you must purchase the tags from the American Angus Association (tags cost \$1 each), then send Hoover Angus Farm a copy of the bill, and we will rebate up to \$20.

If you choose to purchase the RFID/visual tag for \$3.25 each, Hoover Angus will still rebate \$1 for up to 20 tags.

You may purchase more than 20 tags for your calf crop; however, Hoover Angus will only rebate for 20 tags.

Please call us for more details, or visit www.angussource.com.
